MEMPHIS, TENN., SATURDAY, SEPTEMBER 12, 1885.

BLAINE will not be a very dangerous quantity in 1888. He has already been counted out by the West in the person of John Logan, and now comes Gov. Long of Massachusetts, and, speaking for New England, assures the Republicans generally that the "man from Maine," having missed the opportunity of his life, is dead and done for.

JOHN KELLY is not dead but sleeping, and he has a habit of occasionally waking up. When the habit is upon him be makes himself heard, as he did the other day when he sent a letter to Tammany instructing that body of political Indians from Ireland who they should nominate and support for sheriff. The little bosses had already agreed upon another man, but they had to give him up and unite on the "boss's" man. It is evident from this that Mr. Kelly is preparing to resume.

PERTINENT to the publication of the re ports of Kerry Nicholl's expedition in 1883 to the King country of the north islands of the New Z mland group, is the revival of geographical enthusiasm in Europe. The Hungarian Society of Geography is organizing an expedition to explors the region around the Urals, especially the Baskir country. Germans are exploring the watershed between the Nile and the Congo. The French have had con sion at work upon the forests o Tunis, and Austrian scientists have recently returned from the Gallas country.

"What are those handsome tables for asked a visitor to the Merchants' Exchange yesterday during business hours, "I don't see any one trading at 'em' Where I come from we ain't got no exchange, but I could go to the markethouse every day and get any smount of any line of trade I wanted, and at the lowest figures they could be bought for, and you bet your sweet life there was no monkeying with the market there." The old gentleman's remark contains a moral that our Memphis merchants would profit that our Memphis merchants would profit by studying. If they can't come them-selves to the Exchange, let them send samples and a representative of their house. In such way only the utility of the Exchange can be realized.

Wait Till the Clouds Roll By, Love. "Watt Till the Clouds Roll Ry, Love."

But the clouds won't "roll by" as long as dyspepsia holds its cruel grip. Dyspepsia beclouds the the mind, confuses the understanding and darkens the domestic circle. Brown's Iron Bitters makes is short work of dyspepsia. Mrs. H. L. Taylor, Lynchburg, S. C., says: "I have used Brown's Iron Bitters for dyspepsia, with favorable results. I believe it is all it is represented to be." Ask any druggist what is the experience of his patrons who have used this great tonic.

Way of Clearing Up Business by the

Creditable Exhibit in the

Pension Bareau.

Washington, September II.—Col. John A. Williamson, Third Auditor of the Treasury, to-day addressed a letter to the Secretary of the Treasury, stating that on the first day of May last, when he assumed the duties of Third Auditor, it was notorious that the business of the office was largely in arrears, the plea being that the clerical force was not sufficient for the prompt dispatch of the work. The pension division was nearly a year behind in its examination and settlement of the accounts of pension agents, involving claims amounting to \$75,967,885. The miscellaneous claims against the government, including State war claims, amounted to \$15,587,744. Some of the work in the collections division was over two years in arrears. In the horse claim division over 11,000 claims were pending and unsettled, involving \$15,716,396. The unsettled accounts of army commissaries amounted to

sineers amounted to \$5,556,826, making a grand total of \$104,527,017. In the short space of four months, ending on the 31st of August, and without increasing the clerbly half a million cash reserve, and the in-serest on the bonds and the school fund as of the last quarter, which is current work. As showing the improvement in the working capacity of the clerks in that division,

ing capacity of the clerks in that division, he save that during the months of May, June, July and August of Nacy there were examined and settled accounts aggregating \$16,223,580. For the corresponding four months of 1885 the same clerks, with perhaps three or four exceptions, examined and settled \$75,105,778. These figures make their own comment. In the horse claims division 613 claims have been adjusted or rejected involving \$76,275, besides carrying on a large amount of correspondence necessary to the proper disposal of the remaining cases. During the same period in 1884, 200 cases were disposed of, involving \$27,774. The accounts of the quartermasters, commissaries and ngineers are up as far as it is possible for them to be, and the clerks in these divisions are now engaged in current. these divisions are now engaged in current work. TO THE TRADE.

During the past few weeks there has been in all the Eastern Markets a tendency to advance the price of Cotton and Woolen Goods, and many styles of both have already been advanced from 5 to 7 1-2 per cent. In view of this, we wish to call your attention to the fact that our purchases were all made prior to any advance and were so great in extent that we will be enabled to supply all demands for some time at old prices. We would also state here that our stocks are larger and more varied and complete than ever before, and at the same time remind the Trade that we are nearer to them than any other market, and that they can get goods from us at smaller expense than from anywhere else, and lastly, that WE GUARANTEE THE PRICE OF EVERY ARTICLE WE SELL TO BE AS LOW AS IT CAN BE BOUGHT IN THE UNITED STATES.
